

5 CARWASH SAFETY TIPS FOR CONVEYORS

1

KEEP ALL HANDS CLEAR OF ANY CARS/WHEELS ROLLING ON THE CONVEYOR.

2

DO NOT CROSS THE TRACK TO PREP VEHICLES WHILE ROLLING ON THE CONVEYOR – OR FOR ANY OTHER REASON DURING THE WASH PROCESS.

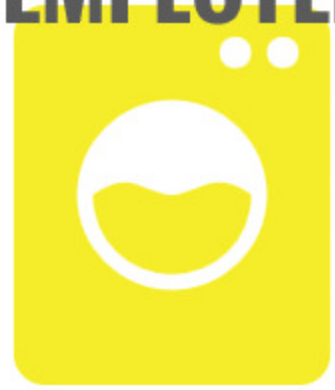

3

KEEP ALL HANDS AND FEET FREE OF OPENING AND CLOSING ROLLER DOORS AT THE FRONT AND REAR OF THE TUNNEL.

4

ALL WASHING AND DRYING MACHINES SHOULD COME WITH A LOCKING MECHANISM; IF DOORS LIFT DURING OPERATION, AN EMPLOYEE MAY GET INJURED.

5

WHEN HANDLING CHEMICALS ALWAYS WEAR PROTECTIVE GEAR, SUCH AS GOGGLES AND GLOVES.
