FOR IMMEDIATE RELEASE

Hydra-Flex Announces Headquarters Relocation and Expansion

May 23, 2016 - Burnsville, MN – Hydra-Flex, Inc., manufacturer of innovative fluid handling equipment, will move its office and manufacturing facility to a larger site in Eagan, MN effective June 20, 2016. The new location is approximately 10 miles northeast of their current headquarters in Burnsville, MN.

According to Hydra-Flex CEO, Jaime Harris, "Demand for our products has risen, and as we continue to expand into other industries we recognized the need to relocate. The Eagan site will be 2.5x larger than our current headquarters giving us room for growth and future expansion. The new facility will also provide a better work environment for our current and future staff. Eagan was an ideal choice because of its close proximity to interstate highways I-35E and I-494 and the Minneapolis/St. Paul International Airport."

To relocate the office, including phone systems and computer networks, Hydra-Flex will be closed on Thursday, June 16 and Friday, June 17. During the temporary closure, Hydra-Flex personnel will not have access to phone or email, but will respond to inquiries upon reopening the following Monday. We thank you in advance for your patience during this transition.

Effective June 20, 2016, Hydra-Flex's new address will be:

**980 Lone Oak Road, Suite 128
Eagan, MN 55121**

All of Hydra-Flex's phone and fax numbers will remain the same.

About Hydra-Flex, Inc.

Hydra-Flex, Inc. was founded in 2002 with a principle focus on "finding a better way" to manufacture innovative fluid handling equipment including chemical dispensing systems and high-pressure nozzles. Listed on both the MSPBJ Fast 50 and INC. 5000 Fastest Growing Private Companies, Hydra-Flex products are now used in multiple industries including vehicle wash, sanitation, hydro-excavation, and industrial cleaning. Hydra-Flex is an expert company in fluid dynamics whose mission is to develop innovative products that solve problems, save precious resources, reduce operating costs, and provide exceptional and measurable results for our customers.
